

Critical Illness Coverage
CancerWise® Plus
HeartWise™

Serious illness takes more than a physical toll — it can impact your finances as well. Our Critical Illness suite of products, can provide an extra layer of financial protection so you can focus on what really matters.

What is a Critical Illness?

A critical illness is a serious medical condition that can strike suddenly and disrupt your life physically and financially. Chances are someone close to you has had a critical illness diagnosis such as cancer, heart attack, stroke, Alzheimer's, or end-stage renal failure.

Our Critical Illness suite of products was created for people up to age 90 to help with some of the out-of-pocket expenses that can add up during diagnosis and recovery.

Can You Afford a Critical Illness?

- Can you afford \$50,000? Time away from work can take its toll. The average loss of income due to critical illness is more than \$50,000.¹
- Can you afford 3 months? Most heart attack patients can't go back to work for up to 3 months.²
- Can you afford a surprise? If you're diagnosed with cancer, you might spend 1/3 of your income on expenses your health insurance doesn't cover.³

Critical Illness Coverage at a Glance

- Pays up to a \$100,000 lump-sum cash benefit on a first diagnosis of a covered critical illness or qualifying event
- Benefits paid directly to you – not your doctor or hospital
- Coverage is available for the whole family – you, your spouse, and your kids
- Affordable premiums that do not increase as you get older with coverage starting at \$7.42 per month⁴

IMPORTANT NOTICE TO PERSONS ON MEDICARE. THIS IS NOT MEDICARE SUPPLEMENT INSURANCE.

Some health care services paid for by Medicare may also trigger the payment of benefits under the Policy.
